

**Tripod for measuring heads Type: Z 150**

The tripod Z 150 is destined for a reliable mounting of Tensometric measuring stations.  
By means of its three holes  $\varnothing 13,5$  mm, it can be fixed on the ground.  
By this way, the mounted measuring-station will be kept in a safe position.  
The easy adjustment of vertical-interval poses no problem to find the best measuring-position.

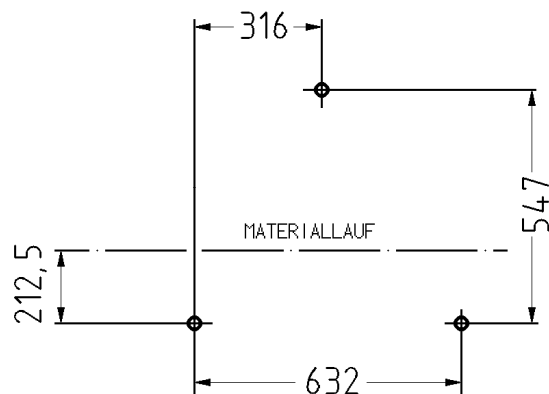

Steel - construction, capacity: 240 kg  
Vertical-interval: approx. 600 mm up to 950 mm  
Colour: dark-grey RAL 7015-2

Suited for Tensometric measuring - station 3 R50 A, 3 R50 B, 3 R100 B500; 3 R100 B1000; 5 R50 A, 2 R80 .

- 1 = For mounting the measuring-station
